AMAG Technology, a G4S company, expands Symmetry Mobile functionalities to support Return to Work strategies for businesses as they reopen. The added features of Symmetry Mobile provide additional controls for a person's access to corporate sites and facilities. Symmetry Mobile now offers additional screening questions to help reduce the risk of potentially infected employees accessing corporate sites.

With Symmetry Mobile, employees can be required to complete a Return to Work questionnaire on their smartphone. Upon successful completion, their physical access card or mobile credential will be enabled for a specified period of time. If the form is not completed
